

NATIONAL GUARD TO FRANCE SOON  
REICHSTAG INSISTS ON PEACE TERMSLEADERS WON'T  
YIELD AFTER  
CONFERENCE

George Michaelis, New Chancellor  
to Make Maiden Speech  
Next Thursday

RETIREMENT OF HOLLWEG  
MAY MEAN NEW DEAL

Hindenburg and Ludendorff Can-  
not Persuade Extremists to  
Recede in Demands

Amsterdam, July 16.—A Berlin  
telegram from an Amsterdam  
news agency quotes the Tage-  
blatt of Berlin to the effect that  
the Catholic and Center party in  
the Reichstag has decided, with  
two dissenting votes, to make a  
declaration in favor of peace ef-  
forts without regard to the at-  
titude of the national liberals.

Copenhagen, July 16.—Dr. George  
Michaelis, the new chancellor, will  
deliver his maiden speech in the reich-  
stag Thursday. The address is ex-  
pected to contain his announcement  
of his forthcoming program, and is  
awaited with great interest. Field  
Marshal von Hindenburg and General  
Ludendorff, who were summoned to  
Berlin by Emperor William, are con-  
tinuing the conferences with party  
leaders. Dr. Michaelis is participat-  
ing in them.

Representatives of the Berlin press  
were received Saturday by General  
Ludendorff, who said the situation on  
all fronts was favorable.

The Pan-German Independence  
league adopted resolutions against the  
proposed peace action of the reich-  
stag, declaring the adoption of the  
majority's program would result in the  
indefinite continuance of the war and  
the political and economic ruin of the  
Germans.

Still Insist on Terms.  
Amsterdam, July 16.—According to  
the Berliner Tageblatt reichstag party  
leaders, after they had been received  
by Marschall von Hindenburg and  
General Ludendorff, decided to maintain  
the terms of peace resolutions agreed  
on before the interview.

It is reported from Vienna  
that Germans and Bohemian  
members of the upper and lower  
houses of the Austrian parlia-  
ment have adopted jointly a resolu-  
tion setting forth their desire for  
peace within the country and of the  
possibility of living side by side with  
the Czechs without abridgement of the  
"national self-determination of both  
elements." The resolution says, how-  
ever, that a separate Bohemian con-  
stitution would not be recognized.

The adoption of the resolution evi-  
dently was prompted by the increas-  
ing unrest among the Czechs, an im-  
portant element of Austria's popu-  
lation. They are reported to be in sym-  
pathy with the militaristic policy of  
the Germans in Austria.

Germany's first commoner chan-  
cellor, Dr. George Michaelis, a bureau-  
crat without even a noble "von" be-  
fore his name, has as yet given no  
indication of his policy regarding re-  
form and peace. Neither the conserva-  
tives nor the liberals have ventured  
to call him their own.

The chancellor's first step was to  
receive representatives of the two  
divergent groups in the reichstag and  
permit them to explain their respec-  
tive standpoints.

The German papers unite in charac-  
terizations of his energy and fair-  
mindedness, but are most reserved in  
their predictions of his probable pol-  
icy.

Kills Peace Program.  
The Cologne Volkszeitung, the  
Catholic organ of the German  
sympathizers, says Dr. Michaelis un-  
doubtedly stands nearer the Right  
than the Left parties. The line of  
comment evidently emanating from  
Wilhelmstrasse is that the new chan-  
cellor regards as his mission the res-  
toration of the internal harmony of the  
nation, whatever policy may be  
adopted. No matter what else may  
result, the change will undoubtedly  
mean the disappearance of the von  
Bethmann-Hollweg peace program.

Dr. von Bethmann-Hollweg's pol-  
icy regarding the ultimate aims of  
the war had from the beginning been  
a personal one, in which "the chan-  
cellor above the parties" had formed  
a program above parliamentary parties,  
the military authorities and the  
emperor alike, and he endeavored to  
impose it upon a changeful sovereign  
oscillating between vistas of brilliant  
ambition and realizations of cold  
facts. Upon the pulsant military  
caste represented by Field Marshal  
von Hindenburg and General Luden-  
dorff, and a blundering, unbrilliant  
parliament.

New Deal of Cards.  
The appointment of Dr. Michaelis  
undoubtedly means a new deal of  
cards. Berlin papers which were pub-  
lished before the appointment of Dr.  
Michaelis was known, show that the  
emperor was confronted by the neces-  
sity of dropping the imperial chan-  
cellor or virtually the entire Prussian  
cabinet.

Paris Hails  
Retirement  
Of Hollweg

All Agreed It Indicates a Crisis in  
Germany of First Import-  
ance

FORMER CHANCELLOR NOT  
POPULAR WITH PARTY

Paris, July 16.—The Paris press  
hails the retirement of Dr. von Beth-  
mann-Hollweg from the German chan-  
cellorship with various degrees of sat-  
isfaction. Some of the comment is in  
a jubilant tone, while other editors  
treat the event soberly. All are agreed  
that it indicates a crisis in Germany  
among precedents important.

The phrase "scrap of paper," fre-  
quently cropped out in the comment,  
and some of the journals traced the  
chancellor's downfall to that early-in-  
the-war utterance of his. The Petit  
Parisien says:

"Though the chancellor changes the  
German masses remain the same. It  
is they who desired the war, to sat-  
isfy their appetite for universal domina-  
tion."

"Bothmann Hollweg would never  
have been disavowed had the hope of  
his masters been realized by victory."

Another paper says:  
"The 'scrap of paper' has finished  
by strangling Bethmann Hollweg lib-  
erated long ago by the war party the  
chancellor's supreme efforts to hook  
up with the peace party. The latter  
rejected him because it considered  
him compromising."

ENTERS FIFTH  
WEEK DEBATE  
ON FOOD BILL

Believed Vote Can Be Reached  
on War Measure by This  
Week

SETTLEMENT HOPED FOR  
BY AUGUST FIRST

Washington, D. C., July 16.—The  
senate today entered on its fifth and  
probably final week of considering the  
administration's food control bill,  
while leaders conferred in further ef-  
forts to perfect the measure in such  
a way as to meet the wishes of Pres-  
ident Wilson and to insure its pas-  
sage.

Under this agreement the senate  
will vote on the bill Saturday and  
then the measure will be rushed to  
conference, where an early agreement  
is looked for so that legislation may  
be enacted before Aug. 1. Senate  
leaders today considered the draft of  
proposed changes designed to com-  
promise the chief points of dispute in the  
Gore substitute, plainly the restriction  
of administration authority. Adminis-  
tration leaders are opposed to this  
provision. A fight may also come over  
the question of government control  
over steel, iron, cotton and other prod-  
ucts.

It is believed that in the end leg-  
islation will be worked out limiting  
government control, but in substantial  
regulatory power to food, seed and fuel.

Debate on the bill was resumed in  
the senate, with prospects of voting  
on the amendment being taken during  
the day.

TWIN CITY FIRM THAT  
SHIPPED POISON BEANS  
MAY BE MADE TO ANSWER

Failure to Appear Before State  
Food Commission Will Mean  
Prosecution

Fargo, N. D., July 16.—The Minne-  
apolis firm which shipped the poison-  
ous Burma beans into the state of  
North Dakota probably will be prose-  
cuted on account of the shipments, be-  
cause of failure to appear before the  
state food commission as requested,  
it was said today.

It was thought possible by some of  
the food experts that the court would  
be asked to issue an injunction to  
prevent further shipment of the beans  
into the state.

EQUIPMENT FOR  
GUARD TO COME  
THRU AT ONCE

Express Shipments Will Be Made  
as Soon as Reports Are in  
Department's Hands

FEDERAL MUSTER WILL  
BE MADE AT LINCOLN

Major Douglas Settle, U. S. A.,  
Will Have Four Captains as  
Assistants

Supplies for the national guard,  
which has been called into federal  
service, will be forwarded by express  
as soon as the commanding officers at  
their home stations give the strength of  
their commands and other infor-  
mation as directed in a telegram sent  
from headquarters to Governor Frazer  
on July 14.

This advice was wired Adjutant  
General Fraser by Adjutant General  
Heistand of the Central department  
today. The information required  
should be in the hands of the Central  
department by the end of the  
week, and supplies should begin ar-  
riving by the middle of next week.

Federal Mustering Officer.  
Major Douglas Settle, a regular ar-  
my officer, to whom has been assign-  
ed the task of mustering the state  
troops into federal service, is ex-  
pected to reach Bismarck today. Act-  
ing on instructions from the war de-  
partment, Major Dana Wright, rank-  
ing North Dakota officer in the federal  
service, has named Captains

Murphy, Wilson and Barker and Lieut-  
enants Bohonok and Renden assist-  
ant mustering officers. Where, when  
and how this mustering will be done  
is not yet indicated. It is reasonable  
to believe this mustering will be done  
after the troops have been mobilized  
at Fort Lincoln rather than that the  
federal officers will be required to  
personally visit each of the 26 com-  
panies scattered over the state, but  
the latter plan may be adopted.

Assembling Proceedings.  
While direct reports on the assem-  
bling of the state troops at company  
rendezvous go into General Barry,  
commander of the Central depart-  
ment, wires reaching the office of  
Adjutant General Fraser here indi-  
cate that the first step in the mobi-  
lization of North Dakota's two infan-  
try regiments is proceeding in a rap-  
id and orderly manner. In towns  
which have no armories, the troops  
are being quartered in the school  
houses and other public buildings,  
where many hospitable citizens have  
opened their homes to the soldier  
boys.

No provision is made for paying for  
sleeping quarters for the troops  
where the state has not already sup-  
plied armories or other quarters, and  
the company commanders are making  
the best of the facilities available.

Companies Now in Service.  
North Dakota troops in federal ser-  
vice are in company rendezvous today  
as follows: First regiment—A. Bis-  
marck, Fort Lincoln; B. Fargo; C.  
Grafton; D. Minot; E. Williston; F.  
Mandan; Fort Lincoln; G. Valley City;  
H. Jamestown; Fort Lincoln; I. Wah-  
peton; J. Dickinson; Fort Lincoln; L.  
Hillsboro; M. Grand Forks; machine  
gun company, Grand Forks; headquar-  
ters company, Valley City; supply,  
Grafton; regimental band, Lisbon.

Second regiment—A. Minot; B. New  
Rockford; C. Crosby; D. Devils Lake;  
E. Langdon; F. Carrington; G. Rolla;  
H. Harvey; I. Bismarck; K. Ellen-  
dale; L. Hankinson; M. Beach; ma-  
chine gun company, Dickinson; sup-  
ply, Hillsboro; headquarters, Bis-  
marck; band, Harvey.

Regimental officers in charge are:  
First, J. H. France, Grafton, colonel;  
G. C. Grafton, Fargo, lieutenant-col-  
onel; Frank Henry, Bismarck, Dana  
Wright, Jamestown, B. C. Boyd, Hills-  
boro, majors of infantry; C. E. Hunt,  
Valley City, major of medical corps.  
Second, Frank White, Valley City,  
colonel; T. H. Tharalson, Bismarck,  
lieutenant-colonel; F. Mudgett, Val-  
ley City, J. M. Hamley, Mandan, E.  
C. Geary, Fargo, majors of infantry;  
F. E. Wheelon, Minot, major of medi-  
cal corps.

First field hospital company, Lis-  
bon, T. C. Patterson, major.

To Wire Barry.  
Company commanders are expected to  
have wired General Barry, com-  
mander of the central department, by  
tonight, the names of their organiza-  
tions, number of men and officers  
represented, and whether they prefer  
to remain at their company stations  
not to exceed fifteen days, or to move  
immediately.

To Mobilize at Lincoln.  
Fort Lincoln was designated by the  
war department mobilization camp  
site for all state troops. Whether the  
first and second regiment will mobi-  
lize there, and if they do, the date  
upon which they will be moved could  
not be stated by Adjutant General  
Fraser today. No equipment has been  
received for North Dakota's 3,000  
troops, which number it is anticipated  
will be augmented to near war  
strength of 4,000 enlisted men by the

(Continued on page two.)

BAD WEATHER  
HAMPER SLAV  
DRIVE IN EAST

Korniloff, However, Keeps Up  
Brilliant Tactics—Making  
Some Gains

ROME REPORTS CAPTURE  
OF DOLINA BY RUSSIA

British Fail to Win Back Ground  
Lost to Germans in Belg-  
ium

RUSH GERMAN TROOPS.  
Washington, D. C., July 16.—The  
whole Russian front, from the  
Gulf of Riga to Rumania, is re-  
ported in official dispatches today  
from Petrograd to the Russian  
embassy here, to be alive with  
battle. The Germans are said to  
be rushing troops from the Italian  
to the French fronts, and to be  
rearranging their positions.

From the northern front, at  
Riga, German forces are rushing  
by sea transports. On the Lem-  
berg front, the troops are being  
shifted back and forth by means  
of heavy automobiles, in an at-  
tempt to prevent further advances  
by General Korniloff. On the  
southern front in the Carpathians  
the Austrians are said to be in  
full flight.

(By Associated Press.)  
Although the movement of the Rus-  
sian infantry engaged in General  
Korniloff's big offensive in eastern Galicia  
is being hampered by bad weather,  
the Cossacks apparently have been  
able to keep up the dashing tactics.  
This is indicated by reports from Pe-  
trograd to Rome today that the town  
of Dolina has been occupied by Rus-  
sian forces.

Advance of 30 Miles.  
If this announcement is true, it  
means an advance of more than 30  
miles for the Russians since the open-  
ing of the drive south of the Dniester  
a week ago. The official reports have  
placed nearly two-thirds of this dis-  
tance from the starting point as Kel-  
sz, taken by Korniloff, is some 20  
miles from Stanislav, which virtually  
was their place of departure.

At Kalusz the Russians were re-  
established on the westerly bank of  
the Lominka, whence the Austrians  
had not been able to drive them, al-  
though heavy attacks have been  
launched in the attempt. The route  
thence to Dolina lies along the Stan-  
islav-Strzy railway line. An advance  
here means considerable progress in  
the movement now under way, intend-  
ed to throw General von Boehm-  
Ernst's army back against the Carpa-  
thians. The Rome report indeed de-  
clares that this already has been ac-  
complished.

French Make Progress.  
The hard fighting that has marked  
the last few days along the French  
front in northern France still con-  
tinues. Last night the Germans made  
sprited attempts to regain the impor-  
tant observation points they lost when  
the French on Saturday night took a  
strongly fortified position in the vicin-  
ity of Mont Haut and the Teton in  
the Champagne district. The attack-  
ing forces were able to make no im-  
pression whatever on the Teton pos-  
ition and at Mont Haut they recovered  
only a narrow foothold on the edge of  
the disputed ground.

The French, in local operations,  
made some progress south of Alen-  
con on the Alsace front and repulsed  
several strong attacks near St. Quentin  
and south of Corbeux. Railing op-  
erations only were reported from the  
British front.

Three attempts made by the Brit-  
ish yesterday to recapture the pos-  
itions won by the Germans on the Bel-  
gian front were repulsed with heavy  
losses to the attackers, the official  
statement says.

CAPTURE 36,543 MEN.  
Petrograd, July 16.—From July 13  
the Russian official statement says  
36,543 men were captured by the Rus-  
sians. General Brusilov's forces also  
captured 93 heavy and light guns, 25  
trench mortars, 4 machine guns,  
two aeroplanes and other equipment.

The Russians yesterday captured  
16 officers and 600 Austro-Germans  
in eastern Galicia, the statement says.

American Steamer  
Sunk; Three Lost

Washington, D. C., July 16.—The  
sinking of the American steamer  
Great and the killing of three men  
and two members of the naval armed  
guard was announced today by the  
state department.

The possibility of defeating Ger-  
many THIS YEAR again claimed  
the attention of the allied strate-  
gists, and it was decided to press  
the enemy on every front and try  
to force a decision.

If it not too much to say that the  
allies hope the German people are  
sufficiently disheartened so that six  
months' pounding on all fronts will  
"conquer them they are doomed to  
certain defeat and cause them to turn  
against their rulers."

Under these "identical" changed con-  
ditions it was decided that America  
could best contribute to the effort  
by adding to the allies' strength  
on the western front as large an  
army as possible, delivered as soon  
as possible.

The reason for this is only partly  
military. The bigger reason is to  
prove to the German people that their  
rulers led to them when they told

## HE'S MAN OF THE HOUR ON RUSSIAN FRONT

Under Gen. Korniloff's leadership the recent marvelous advance of the  
new Russian democracy's army toward Lemberg, capital of Galicia, has  
been made.

TROOPS WILL BE SENT TO FRANCE  
AS FAST AS SHIPS CAN TAKE THEM

Russian Revival and German Disturbances Bring Decision to Rush  
Soldiers for Combined Allied Attack in Mammoth Effort  
to End War This Year

By GILSON GARDNER.  
Washington, D. C., July 16.—Amer-  
ican soldiers are going to France just  
as fast as transports can be pressed  
into service to take them.

Just how fast this will be is some-  
what problematical. If there were  
enough transports available now, and  
the situation in respect to cargo ships  
were satisfactory, it is probable the  
great bulk of the regular army and  
the federalized militia would be in  
France within the next few months.

Cargo ships are just as important  
as transports, as the amount of sup-  
plies that must be taken to France  
for an army of any considerable size  
is tremendous.

Of course, it would be more than  
folly to send troops to Europe any  
faster than they can be supplied with  
food, munitions, transports of every  
character and the thousand and one  
things that go to make up the com-  
plete equipment of a modern army.

The war department is working with almost  
superhuman energy to overcome what  
at times seems insurmountable obsta-  
cles to send an effective fighting force  
in France at the earliest possible mo-  
ment.

Up to a few weeks ago it was not  
thought good strategy to send more  
American soldiers to France this year  
than was necessary to evidence our  
good faith to our allies and for moral  
effect on Germany.

The allies had about given up all  
hope of landing the knock out blow on  
Germany this year.

Russia's ability to renew an offen-  
sive on the eastern front was doubted,  
and it was thought America could  
best contribute to the final overthrow  
of the kaiser by diverting all possible  
shipping to the feeding of her allies  
and supplying them with necessary  
war material, while training her  
armies here.

Suddenly Russia, contrary to expec-  
tations, gathered herself together and  
began to strike. Then came well au-  
thenticated rumors of great satis-  
faction and unrest among the people  
of Germany.

The possibility of defeating Ger-  
many THIS YEAR again claimed  
the attention of the allied strate-  
gists, and it was decided to press  
the enemy on every front and try  
to force a decision.

If it not too much to say that the  
allies hope the German people are  
sufficiently disheartened so that six  
months' pounding on all fronts will  
"conquer them they are doomed to  
certain defeat and cause them to turn  
against their rulers."

Under these "identical" changed con-  
ditions it was decided that America  
could best contribute to the effort  
by adding to the allies' strength  
on the western front as large an  
army as possible, delivered as soon  
as possible.

The reason for this is only partly  
military. The bigger reason is to  
prove to the German people that their  
rulers led to them when they told

Denies Rumor of  
Lumber Strike

London, July 16.—Four of the large  
and most modern German subma-  
rines were destroyed by American  
warships, which were convoying the  
first instalment of American troops  
to France, according to a report from  
German sources, as contained in a  
Rome dispatch to a Rome news agen-  
cy, while the Hamburg-American  
papers are peculiarly adapted to fast  
transport work.

(Continued on page two.)

NATIONAL GUARD  
MOBILIZING  
FOR SERVICE

Eleven States of Union Sent Mil-  
itia Into Federal Service  
on Sunday

WILL PROCEED TO STATE  
CAMPS FOR ORGANIZATION

Early Departure of State Troops  
for Europe Indicated by Of-  
ficial Orders

MAY DRAW SATURDAY.  
Washington, July 16.—The  
basis of advice today, where the  
work of this exemption boards  
had not been completed, the war  
department officials said the  
drawing for the army drawing se-  
lection could hardly be started be-  
fore Saturday.

Fifteen states had not reported  
the completion of their exemp-  
tion boards. The process of the  
boards is to file two copies of  
their completed lists of regis-  
trants as soon as the serial num-  
bers have been arranged.

Washington, July 16.—Mobilization  
of the national guard for war service  
began today. While no orders for  
embarkation for France will be given  
until August 5, when the entire force  
will be formally drafted into the United  
States army, there are indications  
that some divisions will be regarded  
as ready to board transports soon  
after that date.

The first clause of President Wil-  
son's proclamation providing for the  
federalization of the national guard  
for the war became effective yester-  
day. Under it, 11 states, including  
Minnesota, North and South Dakota,  
went on the federal payroll from that  
date. Actual concentration of troops  
in the state camps began today. Ap-  
proximately half the strength of the  
national guard is more than 125,000  
included in the force assembling.

The first step in their preparation  
has been to send to the armies addi-  
tional clothing for their transporta-  
tion to the divisional camps. Full  
campaign equipment will be issued at  
the big camp, reducing the amount  
of matter to be transported with the  
troops.

Civilian Watchmen.  
Rapid progress is being made in  
releasing the national guard reg-  
iments, which had been in the federal  
service since the declaration of war,  
guarding the property. This work will  
be taken over largely by civilian  
watchmen. The next step in the gen-  
eral mobilization will be the order-  
ing of divisions to the camp sites al-  
ready selected for them. A full sup-  
ply of tentage is available, depart-  
ment reports show, and the division  
will entrain as rapidly as the com-  
manders of the departments from  
which they come, and those in which  
their camps are located, are prepared.

The most serious shortage of war  
equipment for the guards is in the  
auxiliary. For training purposes the  
big regiments undoubtedly will con-  
tinue to use the equipment they  
have, supplemented by such addition-  
al ordnance as the regular service  
can spare. It is regarded as practi-  
cally certain that if the guard divi-  
sions are sent to France at an early  
date they will be equipped with fresh  
artillery on their arrival there. Pres-  
umably their first war work will be  
with the famous French "75."

Departure of the guardmen for  
France it was indicated today, will  
be governed by the shipping problem.  
War department officials regard  
many divisions of the state troops as  
virtually ready now for the intensive  
training behind the fighting lines in  
France, which will prepare them for  
their place in the trenches. There  
is no reason why some elements  
could not go forward at once, except  
for a lack of transportation and the  
submarine menace.

CAVALRYMAN'S BODY  
FOUND NEAR SCENE  
OF I. W. W. OUTBREAK

Globe, Ariz., July 16.—Private Cas-  
sidy of a troop of the U. S. cavalry,  
on strike duty here, was found on the  
railroad track of the Old Dominion  
mine today, with his throat cut and  
his body mangled by a freight train.

The coroner began an investigation  
as to whether he was killed by the  
freight or murdered and his body  
thrown on the track.

FIND EXPLOSIVES  
Jerome, Ariz., July 16.—Two boxes  
of dynamite used to destroy a mine  
and correspondence alleged to reveal  
details of I. W. W. plans to tip up the  
copper mining industry in Arizona  
were found here today in a minecase,  
said to belong to James (Red)  
Thompson, known as an I. W. W.  
leader. Thompson was deported with  
12 other men last Tuesday and now  
is held at Prescott.

## NEWS OF NORTH DAKOTA AND NORTHWEST

BRICKS NOTHING  
IN LIFE OF COPS  
AT CARRINGTON

Night Policeman Stops Four and  
Dog Gets Another. Then  
Officer Routs I. W. W.

Carrington, N. D., July 16.—When A. W. Brad, night policeman, started after some men in the shadow of a string of boxcars in the N. P. yards at 2 o'clock in the morning, his dog was laid out with a brick and four other missiles of the same calibre hit the officer, one knocking his gun from his hand, another lodging in his stomach as he reached for the gun, a third felling him in the ribs and a fourth cutting a gash through his hat and tearing open his scalp. Oblivious to such petty annoyances, Brady recovered his gun and opened up on his assailants, who fled, leaving a bloody trail behind them.

GRAND FORKS FAIR  
WILL BE BEST YET

Entries, Prize Lists and Attrac-  
tions Superior to Those of  
Past Years

Grand Forks, N. D., July 16.—The North Dakota state fair, which will open here tomorrow, will go on record as the largest fair ever held in the state, as entries for all departments of the fair have broken all previous state fair records, officials assert.

The cattle entries this year, it was announced, are much greater than ever before. The sheep, hog and horse entries are also much larger. The equine department has been revised and new prize lists have been compiled to induce rural school children to have exhibits there.

THREE-CORNERED DRIVE  
FOR RECRUITS AT MINOT

Co.'s D, First Regiment; A, Sec-  
ond, and Harvey Band in  
Campaign Today

Minot, N. D., July 16.—A three-cornered recruiting drive was held here today, participated in by Company D, First North Dakota Infantry, and Co. A, of the new Second, of Minot, and the Second regimental band of Harvey. The result was a half-hundred new recruits for the two Minot companies and certainty that they will hold up their end.

In addition to the men, the Magic City pledged money in the sum of \$5,000 for the support of its two companies. This evening the regimental band will give a concert, for which tickets have been sold at \$1. After subtracting a small amount for the band, the remainder of the proceeds will go into the Minot military fund.

Both Legs Badly  
Mangled; Dies on  
Way to Hospital

St. Vincent, N. D., July 16.—While crushing grain at the Henry Nolles farm, Percy Stacy became entangled in the belt of the engine and both legs were so badly mangled that he died before he could be taken to a hospital at Crookston.

MESKE BEHIND BARS  
OF STATE PRISON TO  
SERVE HIS SENTENCE

Charles Meske, sentenced to one year's imprisonment for the murder of Deputy Sheriff Evan S. Jones, at Hankinson, was safely delivered over to the state penitentiary here, has been mugged, numbered and assigned his duties.

Aged Woman's Hand  
Caught in Wringer;  
In Agony an Hour

Carlisle, N. D., July 16.—With her right hand caught in the rolls of a power wringer, Mrs. James O'Hara, unable to shut off the engine, fought for an hour to extricate herself before help came. After the engine was stopped, it was necessary to cut the bolts of the wringer with a chisel before her hand could be released. The injured woman is 70 years old, but is making a remarkable recovery.

BOOZE CHECKED  
AS BAGGAGE IS  
EASILY NABBED

Berthold Reservation Man Faces  
Several Serious Charges for  
Importing Liquor

Minot, N. D., July 16.—The confiscation of a trunk filled with whiskey followed the arrest of Ray H. Pinkham, from whose person was taken a baggage check which enable Deputy Sheriff Vandenberg to procure possession of Pinkham's baggage. The trunk was checked over the Great Northern from Minneapolis to Berthold, at which place the arrest was made. After his trial on charges of violating North Dakota's new bone dry law, Pinkham will be turned over to the federal authorities to face charges of violating the federal statute prohibiting interstate liquor shipments into dry territory and also to answer to a charge of introducing liquor into an Indian reservation.

NORTHERN LEAGUE NOT  
ESTABLISHED CERTAINLY

Williston Prefers to Play Inde-  
pendent Baseball—New Cir-  
cuit Must Be Framed

Minot, N. D., July 16.—Because Williston kicked out at the last moment, the proposed new Northern League, to be composed of Minot, Williston, Brinsmade and New Rockford, was not organized at the meeting called in this city. Williston prefers to play independent baseball, and as a result there may be no new Northern League, for there seems to be no team eligible to fill Williston's place.

OTTO EISMAN'S SONS  
MAINTAIN FAMILY'S  
HONOR IN THE ARMY

Underwood, N. D., July 16.—Otto Eisman is a central North Dakotan who has done his bit. His oldest son is a member of Company A, First North Dakota Infantry, at Fort Lincoln, while his youngest, who enlisted in the coast artillery service, is now engaged as a mine-layer somewhere on the Atlantic coast. Otto himself has been active in recruiting in Underwood, which has furnished more enlistments than any other town of its size in central North Dakota.

## Man's Supremacy Over Brute Creation

Clearly Demonstrated With A. G. Barnes' Shows.

Bears, like monkeys, are most amusing, clever and interesting to watch at their play or see performing. Their unusual intelligence permits of their being taught a variety of tricks. Their natural cunning and restlessness and love for displaying themselves for amusement, leads them to a variety of humorous and meritorious situations.

Among the new accomplishments of the big group of bears the A. G. Barnes circus, which comes to Bismarck on Saturday, July 21, carries is the "Wizard of the North Pole."

Two big black bears are harnessed to chariots and

DEATH COMES TO  
DRISCOLL MAN ON  
WAY FROM MAYOS

John H. Lindblad, Veteran Em-  
ploye of Northern Pacific,  
Dies at Steele

Driscoll, N. D., July 16.—Compelled to leave at Steele a limited train which does not stop here, John H. Lindblad, in the employ of the Northern Pacific here since the early 80's, was seized with a fatal attack as he was boarding a local train for home, and a few moments later passed away in a Steele hotel, to which he was carried, unconscious. Mr. Lindblad was on his way home from Rochester, Minn., where he left the hospital apparently much improved. The deceased is survived by a large family, a married daughter, Mrs. Gilbert H. Sando, residing in Fargo.

PROSPEROUS FARMER  
SUDDENLY GOES MAD

Henry Schneider of Pettibone  
Taken to State Hospital at  
Jamestown

Pettibone, N. D., July 16.—Henry Schneider, prosperous farmer and good citizen, was taken to the state hospital for the insane at Jamestown after twice attempting suicide, first with a gun and finally by beating his head with a heavy iron bar. No reason is known for his sudden dementia.

Austrian Drive on  
Red Cross Fund Is  
Checked at Emerson

Emerson, N. D., July 16.—An Austrian drive on the American Red Cross fund was successfully checked when Lena Meskeutche, an Austrian, was overtaken by an auto posse and made to surrender \$25 subscribed for the cause at a Red Cross benefit social held at the home of James Gillis, six miles west of Pembina, where she had been employed. When captured Lena was about to board the Milwaukee limited for her home in the Arbakka district.

War Dance Preves  
Van Hook's Biggest  
Chautauqua Card

Van Hook, N. D., July 16.—An impromptu war dance by Indians from Shell Village proved the greatest attraction of Van Hook's chautauqua. The dance was staged under the direction of Chiefs Big Head and Drags Wolf of the Berthold reservation; a tom tom orchestra furnished the music, and high-brow chautauqua stuff was lost sight of while the painted and feathered braves of the Mandan, Arikara and Hidatsa tribes went through the rituals which fifty years ago would have meant trouble for their ancient enemy, the Dakota nation of the Sioux.

## HERE ARE WHAT OUR SAMMIES MUST CONQUER

Tommy knows them already, and when Sammy reaches the trenches in France, he too will have to become acquainted with them. They're characteristic types of German soldiers captured by the British in their latest drive. They're the kind of men the Kaiser is showing in front of him to maintain his empire by ruthless warfare. Our Sammies will have to conquer them to win the war.

U. S. PREPARES FOR GREATEST  
CITIZENSHIP RUSH IN HISTORY

By F. M. KERBY.  
New York, July 16.—The wheels of the biggest mill in the United States, whose grist is new-made American citizens, are being geared up for high speed work in anticipation of the most tremendous rush for citizenship papers ever known.

The naturalization bureau in New York grinds out annually more than 25 per cent of all the new citizens in the United States. When the Burnett bill passes we will have to handle about four times as many applications in one or two months as we had to handle in five months.

Nearly a million and a half men of military age, are safely ensconced in the "twilight zone" between the country of their nativity and of their adoption. Besides the 111,323 unaturalized Germans disclosed in the registration, there are 1,239,865 other unaturalized foreigners of military age living in America, the larger part of whom come from countries now allied with the United States. All these men are exempt from service in the new army.

The Burnett bill is aimed at the men who have come to this country, and enjoyed all benefits of citizenship without assuming any of its obligations. It will result in making available all fit men for service either in the American army or with the allied armies, for if these men choose to become citizens, they will be drafted under the law of their own countries as soon as they arrive on their home shores.

Manhattan alone. Forty per cent of these men are above 21 years of age. When the Burnett bill passes practically every man of em will make a rush to get his papers and avoid deportation.

"We handled more than 27,000 applications in the five months after diplomatic relations were broken. When the Burnett bill passes we will have to handle about four times as many applications in one or two months as we had to handle in five months."

Nearly a million and a half men of military age, are safely ensconced in the "twilight zone" between the country of their nativity and of their adoption. REAL PLAYGROUND FOR  
GRAND FORKS KIDDIES

Grand Forks, N. D., July 11.—Kiddies of Grand Forks who have to spend the warm summer months in town are going to have a playground in a very short time, and hereafter, every summer, it is hoped, the ground will be in condition early in vacation time for the little people to enjoy the out of doors under proper play conditions.

The playground committee of the Civic league, headed by the league's president, Mrs. Roger W. Cooley, was at the meeting of the park commission at the city hall on Wednesday night, and permission was granted the league to arrange a playground at Central park. All members of the commission signified their willingness and anxiety to co-operate in every way possible with the league, in its effort to provide healthful recreation for the littlest people of the city, and the result of all this combined effort is to be the establishment of the ground at Central park probably the early part of next week.

EQUIPMENT FOR GUARD  
TO COME THRU AT ONCE

(Continued from page one)  
end of the week. According to original instructions this equipment should have been shipped on the same date the troops were called into federal service to the mobilization camp. It was this was done, supplies may be expected at Fort Lincoln within the 15-day period, set as the limit for re-maintaining at company stations.

To Recruit Reserve.  
As soon as North Dakota troops are mobilized, there will be undertaken the task of recruiting the two reserve

TOBACCO HABIT  
EASILY OVERCOME

A New Yorker, of wide experience, has written a book telling how the tobacco or snuff habit may be easily and quickly banished with delightful benefit. The author, Edward J. Woods, 1423 M. Station E, New York City, will mail his book free on request.

The health improves wonderfully after tobacco craving is conquered. Calmness, tranquil sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency are among the many benefits reported. Get rid of that nervous, irritable feeling; no more need of pipe, cigar, cigarette, snuff or chewing tobacco to pacify morbid desire.

battalions which military regulations now require as a means of supplying new men to keep the field forces up to full war strength. These battalions, one of which is assigned for each infantry regiment, will be mobilized permanently at Fort Lincoln, where new recruits will be drilled.

Both the First and Second regiments, North Dakota Infantry, and the First field hospital company were called into federal service by Adjutant General Fraser on Saturday evening following a proclamation issued by Governor Frazier on receipt of instructions from Washington. The original orders had been that only the First regiment was to be called.

The orders will mean, Adjutant General Fraser stated tonight, that probably 3,000 state troops will be on duty at their company stations in the federal service tonight. As each company is assembled, the company commander is instructed to wire the name of his organization and the number of men and officers to the commanding officer of the central department, and to indicate whether they desire to remain at their home station not to exceed 15 days or to be moved at once.

Frazier's Proclamation.  
Governor Frazier's proclamation reads: "Pursuant to the proclamation of the president of the United States and the power and authority vested in me by the constitution and the laws of the state of North Dakota, I, Lynn J. Frazier, governor of the state of North Dakota, do hereby call into the service of the United States the national guard of the state of North Dakota, consisting of the First regiment, North Dakota Infantry, Second regiment, North Dakota Infantry, and the First field hospital company. The organizations will assemble at their home stations and await further orders."

"The old companies should have all of their men at rendezvous by tonight," said General Fraser. No one knows how long the companies will remain at their home stations. They may remain there until fully equipped and recruited to war strength. They may move at the end of 15 days.

Now 3,000 Men.  
The present strength of the two regiments is approximately 3,000, or 1,000 short of war strength. Recruiting will begin immediately at company rendezvous and will be continued later at the state mobilization camp at Fort Lincoln.

Provision is made for the immediate enlistment from the "unorganized militia" of the state of one reserve battalion for each regiment, from which transfers are to be made as vacancies occur in the field forces in order that these may be constantly maintained at war strength. These reserve battalions will be stationed at the regular army post of the state, Fort Lincoln, for the training of recruits under a regular army officer.

Subsistence Allowance.  
Troops while at company rendezvous will be allowed 75 cents per day for meals or 20 cents for rations for

SHUMAN LEAVES  
TO HEAD SIGNAL  
SERVICE TROOP

District Manager North Dakota  
Independent Telephone Co.  
Called for Duty

COMPANY RECRUITED  
FROM FOUR STATES

F. L. Shuman, district manager of the North Dakota Independent Telephone company, left last night for a federal post, where he is to report as captain of a mounted signal service company, composed principally of telephone men, and recruited in the states of Wisconsin, Minnesota, North and South Dakota.

The company is made up entirely of experienced technicians and expert horsemen. Its particular task on the French battlefield will be to establish a line of communication between brigade and battalion headquarters. The battalion to which Captain Shuman is assigned is composed of this northwestern mounted troop, a radio company made up in the state of Illinois and an outpost company recruited in Chicago.

The Northwestern mounted company of the signal corps, which will be concerned directly with wire work, now muster 78 linemen, switchboard engineers, electricians and others of proven ability in telephone work, and it has been recruited up to 90 per cent of actual war strength.

Honored by Employer.

Captain Shuman, who is called for active duty, was tendered a banquet prior to his departure by officials and employees of his district to the number of 50, who presented him with a handsome Masonic ring as a parting token. The signal corps commander came to Bismarck from LaCrosse, Wis., a number of years ago to take charge of the Bismarck district for the North Dakota Independent Telephone company, and he has been very prominent in the business, religious and social life of the community, serving for years as a director of the Commercial club and as a member of the First Presbyterian church board. He is one of the most prominent North Dakotans to date called into actual service.

On Furlough.

The time Captain Shuman devotes to the service of his country is granted by the North Dakota Independent Telephone company as a furlough. The work of his office will be carried on as usual by the district staff, and every local manager has pledged his best co-operation in an effort to maintain the smooth-running machine which District Manager Shuman has built up.

MOTHER'S FRIEND  
FOR  
Expectant Mothers  
MAKES THE CRISIS EASIERSomething New  
In Banking

As a rule a bank or banker does not have much opportunity to vary from the standard rules or practice of banking. He cannot put on special sales as a merchant does because his goods and chattels are not subject to special sale prices. The banker is custodian or trustee for the money of his depositors, he is adviser in the financial affairs of his clients or customers and as a result of all this there is no opportunity to press his claims for patronage except on the basis of service—and this is an age of service. The banker is not a philanthropist—he is a business man—and the better business man he is the better banker he will be. In years gone by the banker was looked upon with awe, he was approached with fear and trembling and was regarded as one apart. Of late years the public has come to know that the banker is human, that he has red blood in his veins, that he eats, sleeps and exceeds the speed limit—even as you and I. And the banker has changed his view of the man in lobby, before the cashier's window or leaning on the rail at the president's desk. Both have come to a realization that each is dependent upon the other. And that is something new in banking.

AND NOW AS TO SERVICE. We are not new to Bismarck—we have been in business here since 1907—have a well established business in farm mortgages and city loans. In our ten years' active experience we have come to know conditions affecting this territory, we have established a wide acquaintance and as a result of that experience—that acquaintance, we are especially well qualified to render valuable service in a general banking business. And here's another point: The banking department now being established simply broadens our business—increases our capacity to serve you. Service to the depositor is the dominant idea.

We pay 4 per cent on Savings, 5 per cent on Certificates of Deposit for 6 or 12 months.

We Invite Your Checking Account  
FIRST GUARANTY BANK  
Capitalization, \$50,000.00.

# BISMARCK MAKES READY RESPONSE TO JEWISH NEED

\$800 Subscribed at Sunday Meeting in Municipal Auditorium  
—List Grows Today

## RABBI STERNHEIM TALKS IN CHURCHES OF CAPITAL

Bismarck is making a prompt and liberal response to the appeal so eloquently made by Rabbi Emanuel Sternheim in behalf of the suffering Jews in the European war zone. A subscription list opened at the Sunday meeting in the Auditorium with pledges of more than \$800 is rapidly growing today, through the efforts of Alex. Rosen, head of the local committee, supplemented by Rabbi Sternheim, and prominent Capital City Jews. It is anticipated that Bismarck's \$2,000 proportion of the \$25,000 fund which has been allotted to North Dakota will be raised without difficulty.

**Good Meeting Sunday.**  
Sunday's meeting, considering the season always required to bring people within doors on beautiful summer afternoons, was very well attended, and all who came were amply repaid for the effort. Chief Justice Andrew A. Bruce of the North Dakota supreme court presided. The invocation was offered by Rev. W. J. Hutcheson, pastor of McCabe Methodist Episcopal church, and the benediction by Rev. Bruce E. Jackson, pastor of the First Baptist church. Short addresses were made by Governor Frazier, Chief Justice Bruce and Rev. George Buzelle, rector of St. George's Episcopal church, all of whom heartily endorsed the work. The principal address was made by Rabbi Sternheim, who proved himself an eloquent and appealing speaker.

**Many Subscribers.**  
The subscription lists were headed with \$250 from Alex. Rosen, \$200 from Joseph Breslow and \$50 from Mrs. Mollie Eppinger. There was a large number of pledges of \$50, \$25 and less, and the result, considering the size of the audience, was very gratifying.

Yesterday morning Rabbi Sternheim preached from the pulpit of the First Baptist church, and in the evening he talked at McCabe Methodist Episcopal church. Large congregations attended both services and were very favorably impressed with the discourses, which treated of the universal brotherhood of man along non-sectarian lines.

# DISPUTES DELAY SHIPBUILDING PLAN

Goethals and Denman Cannot Agree Upon Policies to Be Followed Out

Major General Goethals has postponed his plan for commandeering today of private merchant shipping under construction in the United States and contracting immediately for building two government ship building plants. He acted at the request of Chairman Denman of the shipping board, who went to lay the matter before the directors of the Emergency Fleet corporation.

The wooden ship controversy is involved. The board of directors of the Fleet Corporation, composed of members of the shipping board, it is understood, will insist that the manager-general, Goethals, build more wooden ships than he has provided for. It is said, too, they do not approve the plan for construction of government-owned steamship yards until there has been a full discussion of the project. General Goethals announced his program Friday in a letter to Mr. Denman, after an order was issued by President Wilson directing the Fleet corporation to take charge of the building program and authorizing the shipping board to operate and requisition tonnage already on the seas.

Today's developments indicating that differences between General Goethals and Mr. Denman may be far from settled led to the suggestion that it may be necessary for President Wilson to decide definitely as to who shall be in supreme charge of the building program.

# LEADERS WON'T YIELD AFTER CONFERENCE

(Continued from page one)  
cabinet, the members of which submitted their resignations, declaring that they could not remain if von Bethmann-Hollweg was retained. The Bavarian premier, Count von Hertling, who favored moderate peace proposals, but refused flatly to accept the idea of a parliamentary ministry, which would diminish Bavaria's special influence on the government, seems to have thrown himself into the struggle against von Bethmann at the last minute. The Bavarian cabinet members of the Reichstag started an anti-von Bethmann revolt in the party, and the crown prince made valid his long standing opposition to the imperial chancellor by voting for the Reichstag Peace Proposal.

Friedrich von Hindenburg and General Ludendorff were again summoned to Berlin to sidetrack the proposed peace resolution by giving encouraging reports of the military situation and to inspire the Reichstag with a belief in the possibilities of obtaining that "German peace worthy of the sacrifices made" to which von Hindenburg committed himself in his

# RED CROSS CLASSES STARTED HERE—COURSES WILL TEACH HYGIENE AND FOOD VALUE

Work of organizing classes for the various courses of instruction given under the direction of the American Red Cross has been started and anyone desiring to enroll may interview members of the sub-committee to the committee on instruction of women—Miss Heinricha Beach, Mrs. Henry Linde, Miss Alice Knott, Miss Florence MacPhee, Miss Nina Gibson—any of whom will be in position to furnish all information desired in connection with various courses of instruction.

**To Improve Efficiency.**  
For some years the American Red Cross has carried on educational work with the intention of improving the efficiency of the people in time of war, civil disaster, or emergency in their homes.

These courses will be as follows:  
First aid (for women and men).  
Elementary hygiene and home care of the sick (for women).  
Home dietetics (for women).  
Preparation of surgical dressings.

The course in first aid for women supplies useful and practical knowledge which all women should have. The course in first aid for men, besides giving valuable training, is a prerequisite for those who may desire to fit themselves for membership in Red Cross organizations formed for service with the armed forces of the United States.

The primary object of the course in elementary hygiene and home care of the sick is to teach women personal

published replies to the memorials of Pan-German objections.

Before the election of Dr. Michaelis became known, the papers generally agreed that von Bethmann-Hollweg's retirement would be accompanied by sweeping changes in the imperial and Prussian administrations. The feeling was general that a large part of the secretaries of state and ministers who had been in office since and before the war should be replaced by fresh hands and brains, without any incubation of the past.

This, in the ultimate analysis probably was one of the chief considerations impelling the emperor to accept the resignation of a personally sympathetic statesman.

# \$100,000 LOSS FROM HAIL IN WILLIAMS

Tioga, N. D., July 16.—A loss estimated at \$100,000 was done to crops in a strip 40 miles long and three miles wide in Williams county by the wind and hailstorm which struck that section Saturday night, according to reports received here today. The storm passed near here, but did no material damage.

HOGS—Receipts, 7,600. Market, steady to lower. Range, \$14.25 to \$15.35; bulk, \$14.50 to \$14.80.	
CATTLE—Receipts, 6,300. Killers, 15 to 25c lower. Steers, \$5.50 to \$12.00; cows and heifers, \$7.10 to \$10.25; calves, \$5.50 to \$12.00; stockers and feeders, 25c lower, at \$5.00 to \$8.75.	
SHEEP—Receipts, 260. Market, steady. Lambs, \$7.00 to \$15.00; wethers, \$7.00 to \$9.50; ewes, \$5.00 to \$8.50.	
CHICAGO.	
HOGS—Receipts, 37,000. Market, unsettled. Bulk, \$14.75 to \$15.70; light, \$14.75 to \$15.65; mixed, \$14.40 to \$15.75; heavy, \$14.25 to \$15.85; rough, \$14.25 to \$14.45; pigs, \$12.25 to \$15.10.	
CATTLE—Receipts, 21,000. Market, weak. Native beef steers, \$5.25 to \$13.90; stockers and feeders, \$6.20 to \$9.15; cows and heifers, \$5.35 to \$11.80; calves, \$9.50 to \$14.50.	
SHEEP—Receipts, 26,000. Market, weak. Wethers, \$7.60 to \$15.80; lambs, \$9.50 to \$15.40.	

and household hygiene in order that they may acquire those habits of right living which will aid in the prevention of sickness and the upbuilding of a strong and vigorous people, and to give them simple instruction in the care of the sick in their own homes which will fit them to render intelligently such service as may be safely entrusted to them. Preparedness along the line of instruction developed by the course in elementary hygiene and home care of the sick may well be of as great importance to a household or a community as for use in behalf of the country at large.

**Teaches Food Value.**  
The object of the course in home dietetics is to teach women the proper selection and nutritive value of food and the importance of a well balanced diet for adult and child, the sick and well, in order that they may not only understand the underlying principles, but apply such knowledge to the practical performance of buying, cooking and serving in their own homes.

In order that surgical dressings prepared by volunteer workers throughout the country for home preparedness or European relief shall meet the standard requirements as established by the American Red Cross, classes under qualified instructors are being organized. These classes are not only expected to teach uniformly in the preparation of dressings, but to prepare instructors who will be needed in order that correct methods may be widely disseminated.

# American Miners Drive Out Foreigners

Flat River, Mo., July 16.—Reports were received today of sporadic firing by guardsmen to frighten away looters who continued the pillage of the homes of the foreigners driven out by American miners and raided a church in the colony. Although this is prohibition territory, great quantities of liquor have been found in the homes of the exiles. Looters began to seize liquor and to prevent any trouble the guardsmen destroyed 2,000 bottles of beer and several kegs of liquor.

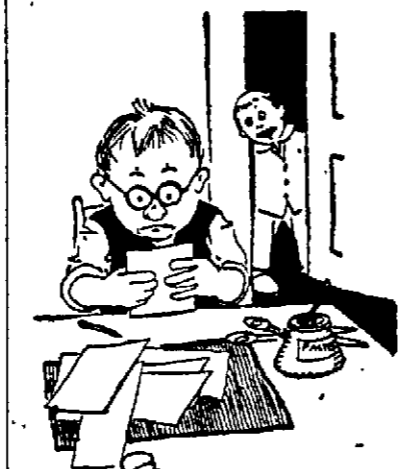

Hundreds of men carrying dinner pails walked to the mines ready to go to work if the mines were operated today. In the great exodus of Saturday, according to a story that seems authentic, one family forgot a baby. Another fleeing family picked up the baby and took it along and found its parents later.

**A Ruse That Failed.**  
"A friend advised Jagsby to take home a bunch of flowers for his wife when he stayed out late, as a sort of peace offering."

"A good idea. Did Jagsby try it?"  
"Oh, yes. But he discovered the next morning that what he took home was a bunch of celery."

**A Trifle Previous.**  
"I had an idea I'd grow up and own this business some day," said the discharged office boy.  
"That's just why you were fired," said the boss. "Ever since you started to work here you've been acting as if you already owned the business."

## FORCE OF HABIT.

Office Boy (to magazine editor)—There is a poor beggar outside, with a very pathetic story.

Editor (absently)—Tell him we thank him for submitting it, but its non-acceptance does not imply lack of merit.

**Wrong Again.**  
One might think that would be dead strong if he did that hairs are cured by a veterinary surgeon.

**BIDS WANTED.**  
Bids will be received by the State Normal School at Minot, North Dakota on or before July 25, 1917, for the following supplies for the year beginning July 1, 1917:

- Apparatus for Science Laboratories
  - Office Equipment
  - Manual Training Equipment
  - Library Equipment
  - Addressograph
  - Print Shop Equipment
  - Chairs, Plain, Movable Study Table
  - Arm
  - Blackboards
  - Domestic Science Equipment
  - Maps and Globes
  - Steel Lockers
  - Gymnasium Equipment
- Lists and specifications can be had from the office of President A. G. Steele, State Normal School, Minot, North Dakota, to whom all bids should be mailed. The School reserves the right to reject any or all bids.
- A. G. STEELE, President

# MINOT CASES AND SLACKERS IN U. S. COURT THIS WEEK

Term of State-Wide Interest at Fargo—Fifty Subpoenas for Magic Citizens

Fargo, N. D., July 16.—The coming term of the federal court which opens here this week, will be without question one of the most important ever held in the northwest, it was said by court attaches, as more than 50 subpoenas have been served so far by Attorney General William Langer and his assistants.

The most important case, it was said, was to be the trial of the scores of persons, recently arrested in the raid at Minot, N. D., charged with violation of the liquor laws of the state. Other cases on the court calendar include "slacker" charges in connection with the recent registration for military duty and alleged violations of the new "bone dry" law which went into effect July 1.

# TWO BANDS TO GIVE CONCERT HERE TONIGHT

Salvation Army Benefit on Grounds Near Auditorium Will Be Big Musical Event

Forty-five musicians of Mandan and Bismarck will participate in the band concert to be held on the vacant plot immediately north of the Auditorium tonight. The concert will start at 8:15 and continue until 9:30.

This big band is made up of the Bismarck Elks' and Mandan city bands. Frequent rehearsals have been held this summer, and a concert recently given in Mandan is said to have far exceeded the expectations of the large audience which heard it. The event this evening is given for the benefit of the local Salvation Army post, which will serve refreshments on the ground, and which is in charge of the concert.

Capt. James Murphy of the Salvation Army, himself a band director, anticipates an unusually excellent music fest this evening and announces that probably 300 people will be here from Mandan. The organization from Morton's capital city will arrive on the evening limited train and will return on the 11:45 train.

## ADVERTISEMENT.

Sealed bids for the construction of a lateral sewer on First street, from Avenue C to a point fifty feet north of the north line of Avenue D, in Sewer Improvement District Number One, City of Bismarck, North Dakota, will be received by the Board of City Commissioners of said city until eight o'clock p. m., July 30th, 1917. Certified check for \$500.00, to the order of A. W. Lucas, president of the City Commission, must accompany each bid. Each bid must also be accompanied by a bidder's bond in a sum equal to the full amount bid. Plans and specifications are on file with the City Auditor and with the City Engineer. The City Commission reserves the right to reject any or all bids.

C. L. BURTON, City Auditor

## NOTICE TO CREDITORS OF THE BISMARCK TRIBUNE COMPANY.

TAKE NOTICE, That on the 1st day of August, A. D. 1917, at 10 o'clock A. M., at the court house in the City of Bismarck, Burleigh County, North Dakota, the matter of the application of C. B. Little, Receiver of the Bismarck Tribune Company, a corporation, for a confirmation by the Court of said Receiver's report of distribution of the assets of said corporation, which is on file in the office of the clerk of the District Court of Burleigh County at Bismarck, North Dakota, and for a discharge of said Receiver, and the release of his sureties from further liability on the Receiver's bond heretofore filed, will come on before the court, and at said time and place the Court will hear and determine any and all objections to such confirmation and discharge that may be presented by parties interested in said action or other persons entitled to object thereto.

C. B. LITTLE, Receiver of the Bismarck Tribune Company, a corporation, MILLER, ZUGER & TILLOTSON, Attorneys for said Receiver, Bismarck, N. D.

**Savings Used to Kindle a Fire.**  
Alliance, O.—Mrs. Rosa Cfeher, used an old handkerchief containing three \$100 bills, six \$50 and five \$10 bills, the savings for three years, together with some newspapers in kindling a furnace fire. Not even the ashes of the currency remained.

# MURPHY SUCCEEDED BY A. E. MARSHALL

The final move of the Salvation Army will be held at the city hall tomorrow evening. The move will be conducted by the Salvation Army and a special musical program will feature this farewell meeting. Captain Murphy and his family leave Wednesday afternoon for St. Minn., where they will visit the family before leaving home of his parents before leaving for their new home in Sioux Falls, S. D.

Capt. E. A. Marshall of Minneapolis

# HOW TO FIGHT FIRE

First Step Is to Turn Off Gasoline Supply at Tank.

## SELF-CONTROL IS ESSENTIAL

While Novice Stands Aghast Experienced Man Jumps for Nearest Preventive—Small Extinguisher Is Favored.

(By WILLIAM H. STEWART JR.)  
When gasoline takes fire it is a serious matter, but the most dangerous accessory to a fire is the one you least expect, namely, panic.

The average person has such an unreasoning fear of gasoline that he loses his head completely. The first few fires will leave one completely unnerfed for a time, but after a little experience in fighting them panic disappears and self-control is gained. This does not mean that one should delay or move any more slowly, but should know what to do and do it quickly.

**Novice Stands Aghast.**  
The novice stands aghast as the first burst of flame comes from the carburetor. The experienced man jumps for the nearest preventive. At least one small fire extinguisher should be on every car. The large chemical devices are too bulky and cannot be laid in any position, whereas the ordinary instrument may be stowed away in a small space. The best place is beneath the hood on the carburetor side. This is where the fire starts and may be reached by raising the hood. Some carry them on the running board, but this is objectionable on account of their liability. If placed under the seat or secured by a lock they are not readily placed in service, and the machine may be badly damaged meanwhile.

# HANDY WIRE MESH TOP FOR AUTOMOBILES

## NETTING PROTECTS HATS OF MOTORISTS.

Taking account of stock at the end of an exhilarating automobile trip has doubtless revealed that a comparatively new hat or two, and perhaps some perfectly good and more or less expensive vests have passed on to other owners.

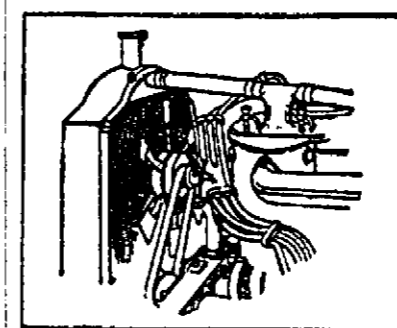

To prevent such losses without curtailing any of the pleasures of automobile driving, B. F. Cone of Ashland, Neb., has invented a safety guard of wire mesh which will fit over the body of any make of automobile. It will also serve as a protection from brushing tree-branches and from other menaces to personal safety and comfort when traveling through less frequented places. If a bad spill should occur, it will prevent the occupants from being thrown out of the car.

The uprights of the frame are secured to the bottom of the sides of the car, passing up through the sides to the top and meeting there a re-enforcing bar which extends from front to rear. These uprights are of steel and are heavily padded on the inside of the car so that if the occupants should be thrown against them no harm would be done.—Popular Science Monthly.

## FAN GENERATOR IS INVENTED

Outer Portion Revolves and Inner Part Is Held Stationary, Reverse of Ordinary Method.

In this electric generator for automobile electric equipment, the outer portion of the generator revolves and the inner portion is held stationary. Instead of just the reverse, which is the case in most electric generators, fan blades are mounted on this outer revolving portion of the generator so that the outfit combines the duties of a cooling fan with those of an electric generator. A belt from the crankshaft of the engine drives the combination just the same as it drives the cooling fan of the ordinary automobile engine. The support and bearing arrangement is the same as for the ordinary cooling fan. The control and regulation means of the generator are standard as in other generators.—Farming Business.

Fan Generator.

that the outfit combines the duties of a cooling fan with those of an electric generator. A belt from the crankshaft of the engine drives the combination just the same as it drives the cooling fan of the ordinary automobile engine. The support and bearing arrangement is the same as for the ordinary cooling fan. The control and regulation means of the generator are standard as in other generators.—Farming Business.

# TEST BRAKES BEFORE START

Necessary Precaution Previous to Working Car on Hill—Also Make Examination of Wheels.

Never take a car out on hill work without knowing the brakes. To test them properly the rear wheels should be jacked up and the brakes applied gently and then more firmly. At the same time the wheels should be tried to see if they turn freely or are held rigidly. If there is no time for above test, speed up and stop the car several times, using foot-brake and emergency brake separately.

his son of Colonel Marshall of the Salvation Army will succeed Captain Murphy in charge of the Salvation Army work here. He is expected to arrive Thursday and a welcome meeting will be given for him in the hall

chine may be badly damaged meanwhile.

Always turn off the gasoline at the tank to stop feeding the flames. Ordinarily there is not more than two ounces in any float chamber and this will not last long. All the parts about the carburetor are metal and not easily harmed. It is well also to use the self-starter to turn the engine. This will draw flames into the manifold. Quite often the whole fire may be extinguished if this is done in time.

A greater danger arises from permitting an accumulation of inflammable material in the drip pan. Once this becomes fully ignited, the situation requires prompt and efficient action. The work of extinguishing should begin right here, leaving the carburetor till the last. Otherwise the burning gasoline at the bottom will continue to ignite that at the carburetor.

**Start at Bottom.**  
So, remember, always start at the bottom and work upward. If there is a flame on the ground beneath the car, use the self-starter with gears in mesh to move to another position. Sand is good if available, but never throw sand on the carburetor or any other parts of the machine. It falls away, leaving gasoline free to burn and also gets into the mechanism, doing incalculable harm. On a flat surface sand is excellent, or any other dry powder. Even flour has saved many a home where gasoline has been used carelessly. The old method of covering the fire with a rug or carpet is good, but the extinguisher is better. This covers the fluid with a layer of heavy noninflammable gas which smothers the flame. Finally, be cautioned never to throw water on burning gasoline. It is heavier than gasoline and tends to spread the flame.

Everyone knows that any kind of a fire is dangerous, but if the above suggestions are employed under self-control, the flame starting from a carburetor backfire will be efficiently stopped at the source.

# DON'T TAKE FARM BOYS, WRITES LETH

Jamestown, N. D., July 16.—R. J. Leth, specialist of the government here, in reply to a telegram from the war department asking for information concerning farm labor conditions in the state of North Dakota today replied that any draft of experienced farm help before October would seriously interfere with the present harvest and acreage prepared for 1918, in the state.

The war department called upon him for information which was to be used by the conscription board.

# HALLIDAY TAKES TWO FROM SPEEDY NEW ENGLAND MEN

North Branch Team Continues Winning Streak—Here for Double-Header Next

Halliday, N. D., July 16.—Halliday defeated the fast New England team Saturday by a score of 2 to 1. Hits, Halliday 6, New England 3; strikeouts, Halliday 6, New England 9. Batteries, Halliday, Gardner and Wasmen; New England, Northrup and Dougherty, the latter being the former coach at Jamestown college.

This gives Halliday the last four games played, having twice defeated Bismarck and New England.

Next Saturday Halliday goes to Bismarck for a return double-header.

# FORMER HEAD OF N. D. BANKERS' ASSOCIATION DIES IN TWIN CITIES

Death Comes Unexpectedly to W. D. McClintock, Well Known Rugby Financier

Rugby, N. D., July 16.—W. D. McClintock, president of the Merchants' bank of Rugby, died in St. Paul, where he was apparently recovering after a several weeks' illness.

Mr. McClintock was born in Philadelphia, Pa., in 1849 and came to North Dakota 35 years ago, settling in Pembina. One year later he moved to McHenry county, where he lived until 1897, when he came to Rugby.

During his long residence in this city he has always taken an active interest in everything making for the upbuilding of the community and was one of the most prominent men in this section. Two years ago he was president of the North Dakota Bankers' association and last year he was chairman of the executive committee of the association.

Mr. McClintock is survived by his widow and four sons. Mrs. McClintock, who was with her husband at the time of his death, will bring the body to this city, where funeral services will be held.

# GERMAN PLOT IS UNCOVERED

Chicago, July 16.—John M. Natchky was arrested by federal agents today, charged with trying to form an organization, pledging members if drafted, first to shoot their officers and next to surrender to the Germans.

# COLEHARBOR TO MEET BISMARCK CHAMPS ON WEDNESDAY EVENING

Coleharbor, which has been winning some great battles in Sheridan county and other territory to the north and which numbers McClusky among its victims, comes to the capital city Wednesday for an evening game with the Champs, to be called at 8:15.

Halliday comes the end of the week for a double card. Whether one game will be played Saturday evening and the other Sunday afternoon, or both games be scheduled for Sunday has not been determined. Halliday trounced Bismarck for two games last week and revenge will be sweet to the Champs.

**AUTOISTS, TAKE NOTICE.**  
East bound and west bound traffic always has the right of way on Bismarck streets. Automobileists traveling north or south must observe this rule in order to avoid accident.

Signed CHRIS MARTINESEN, Chief of Police.

on Main street Thursday evening. The new captain is a comrade of proven ability. This will insure the maintenance of the band which has been so well conducted by the departing Salvation Army man

# SOCIETY

## Mrs. Strauss Entertains at Prettily Appointed Bridge Party

Mrs. F. B. Strauss of First street entertained Saturday afternoon at a prettily appointed bridge party. The large living and dining rooms were attractively decorated with roses and carnations. Seven tables were in play and honors were awarded to Mrs. F. L. Shuman.

**At Home to Friends.**  
C. H. Hageman and bride, formerly Miss Georgia Carpenter, have returned from a honeymoon spent in New York, Washington and other eastern centers, and are at home at 515 Sixth street.

**Library Building Progressing.**  
The work on the library building now being erected on the corner of Thayer and Sixth streets is progressing steadily. The west wall is up more than 11 feet from the ground. This will be continued around the building, when the window casings will be placed in position.

**Entertains for Rabbi.**  
A dinner party was given yesterday at the home of Mr. and Mrs. J. Brown in honor of Rabbi Emanuel Sternheim. Covers were laid for eight. Another event in honor of the distinguished Jewish speaker will be given this evening, when he will be entertained at dinner by Mr. and Mrs. A. Rosen at their home in Person court. Covers will be laid for six.

**Returns From Vacation.**  
W. E. Parsons, county superintendent of schools, and family returned Friday from a two weeks' visit to Page, in the eastern part of the state, where Mr. Parsons' father makes his home. The superintendent's office is very busy at this time, checking and reading annual reports from the 49 school districts of Burleigh county. The work is in preparation of the annual report to the state superintendent of public instruction in September.

### PERSONAL NOTES

Mr. and Mrs. E. T. Smith of Regan were in the city yesterday for the afternoon.

L. Kingsley and C. Tellebog of Mott were among the Sunday visitors to the Capital City.

Attorney George H. Musson of Tulsa was in Bismarck yesterday for the day.

Mr. O. Jorgensen of Milnor, former state auditor, is in the city today. Mr. Jorgensen recently completed the difficult task of separating the records of Morton and Grant counties.

William Braswell, representative of the Burroughs Adding Machine company, formerly with the Daily American at Aberdeen, S. D., was in the city today. He will make his headquarters here for the coming month.

Mr. and Mrs. T. H. Crane of Mott were Sunday visitors in Bismarck.

Mr. and Mrs. E. T. Stevens, who are motoring to western points, were in

the city yesterday for the day. J. L. Robinson, Steele banker, and party were guests at the McKenzie hotel yesterday.

**With Friends at Shoreham.**  
Fargo Courier-News: Mr. and Mrs. Garfield Rustad, Mr. and Mrs. Oscar Rustad, Mrs. Chester Mills of Moorhead and the latter's guest, Miss Gar-nett Reisdorf of Bismarck left yesterday afternoon for Shoreham. They will return this evening.

**Return in August.**  
Mrs. M. J. Wildes and daughter, Mrs. W. J. Ebeling, of this city, leave this evening on the limited for Chicago and points in Wisconsin. They will spend the summer visiting with relatives and friends, returning in August.

**Motor to Ft. Yates.**  
Mrs. E. G. Ewen and daughter, Mary Jane, of Rockville, Ind., accompanied by Mrs. Roy Robinson and daughter, Muriel, of this city, motored to Fort Yates on Tuesday, returning Thursday. The Ewens made the trip from Indiana in their automobile arriving here July 4.

**To Minnesota.**  
Mr. and Mrs. J. L. Whitney and Mrs. Charles Brewer left this morning by auto for St. Cloud, Minn., and other Minnesota points. Mr. and Mrs. Whitney will visit the twin cities, Rochester, Owatonna and the lakes, while Mrs. Brewer, after spending a few days with twin city friends, will return to Fargo for a visit at her former home.

**For Officers' Camp.**  
C. A. Seamonds, president of the Hettinger Booster club, was in the city today to make application for admission to the second officers' training camp, to be established at Fort Riley, Kan., in August. He reports that prospects in Adams county are good for more than half a crop, but captures have picked up greatly since the recent rains, and that a first class harvest of hay is in sight.

**Many at Lake.**  
Many Bismarck automobile parties Sunday at beautiful Painted Woods lake. Among the excursionists were Mr. and Mrs. C. W. Nichols and family, Mr. and Mrs. John A. Larson and son, Mr. and Mrs. John Dawson, Mr. and Mrs. John Clinton, Mr. and Mrs. J. I. Reop, R. M. Halliday and family, A. J. Arnot and family, C. B. Whittey and family, Howard Light and family, Mr. and Mrs. G. L. Price, E. H. Myller, Miss Josephine Hamel, Miss Alice Gilbertson and Frank Moe and family.

## Fashion Responds To War Start; Flag Appears in Feminine Toggery!

By BETTY BROWN.

New York, July 14.—Fashions have responded almost instantly to the declaration of war. Fifth avenue shops are full of dainty things for women to wear that will express the patriotism of the wearer. The red, white and blue dominates hats, veils, stockings, gloves and gowns. The Stars and Stripes have been woven into the fabric of the new spring fashions.

From top to toe, Missy of Fashion can find something nowadays to express her patriotism in her dress. The Knox company, at Fifth avenue and Fortieth street, displays new veil with the American eagle at the top, to be draped over the hat, and with three American flags embroidered in the mesh. The flags are embroidered into the lower portion of the veil, which is waist length.

The Franklin-Simon company is showing new white silk stockings, with a dainty silk flag woven into the fabric and showing at the ankle.

New gloves, with the flag design woven into the back, in place of the

usual row of black stitching, are also ready.

Military coats, approximating the olive drab of the army in color, are on exhibition.

Yet it is a little too soon to discover any patriotic resolve to dress with greater economy. The shops at the upper end of the district are as resplendent as ever, and conceal in their pearl and gray and white enameled fixtures such an array of silk coats and gowns of finest Georgette or resplendent cloth of gold and silver as would dazzle the eyes of Cinderella.

The use of heavy silk so richly brocaded with threads of silver or gold as to render the material almost like metal cloth has resulted in a new, short, but richer, close-fitting straight-lined skirt, hung in the back with a flat, narrow train, hardly more than a great broad sash, or the whole skirt is stiffly draped, with a little fullness at the back and sides, but kept narrow around the bottom. This whole question of skirts, by the way,

promises to be interesting pretty soon. There is a suspicious hint of tightness and a decided line of fullness at the knees or higher up, which leaves one wondering what the new line will be.

The length of skirt stays about the same, or perhaps creeps just an inch in the general direction of shoe tops. Rest assured they do not seem to go far below that, and the observer along the avenue counts herself fortunate, indeed, if most of them reach that far.

Many women seem to imagine fashion demands that they leave an ugly little strip of "neutral territory" below the hem of the skirt and above the top of the boot.

After a riotous wandering in the field of color, shoes have managed to come as near to finding a stopping place at the new dark shades of brown as anywhere. Lighter shades of brown also are popular, and pumps continue to appear in delicate gray and light sand color. But the smart shoe of the season is undoubtedly brown or a combination of two shades of brown.

Pumps are as plain as possible in cut; the dressier models are adorned with buckles of silver or cut steel, oval or rectangular, and fully two inches across.

Little, Two, Early, Avenue to Show Any More Resolves to Dress With Economy, Says Betty Brown.

## Plaza Is Flourishing Town In Mountrail County

Plaza, North Dakota, situated on the Soo line, 35 miles from Max population 500, is one of the flourishing towns of Mountrail county. Its churches are Catholic, Congregational and Norwegian Lutheran. Two banks, three hotels, four grain elevators and an electric light plant serve the town. Neighboring land sells for from 15 to 50 dollars per acre. Below we give mention of some of the firms and men who keep Plaza on the map.

**Ernest Balskott, Hardware.**  
This firm started business here in 1906 and since that time has built up a very large business. In connection with hardware Mr. Balskott also carries a complete stock of furniture and farm machinery. He sells the Chalmers cars and accessories and also operates a large grain elevator where he handles grain, feed, flour and coal.

**Hotel Plaza.**  
When in Plaza don't forget to stop at the Hotel Plaza. You can always be sure of a good room and will receive the best of attention. European plan with rates 50, 75 and \$1.00.

**J. J. Linde.**  
J. J. Linde is proprietor of what is known as the pioneer barn. It is a feed and livery stable with both horse and auto livery. Mr. Linde gives the best of service.

**People's Meat Market.**  
This market, supplying their trade with the best of everything in the line of fresh and salted meats, poultry, fish and oysters in season.

**City Confectionery.**  
Rudolph Munson is the proprietor of the City Confectionery. He always has on hand a fine stock of cigars, candies, soft drinks, etc. A year ago a new, up-to-date building was erected and an ice cream fountain was installed.

**W. W. Forsyth.**  
Mr. Forsyth represents the Standard Oil company here and also operates a fine farm close to town.

**Simonsen-Ames Co.**  
This is one of the largest general merchandise stores in this part of the state, carrying a \$35,000 stock of groceries, dry goods, ladies and gents' furnishings. This is one of a chain of nine stores in this state.

**First National Bank.**  
The First National Bank of Plaza was organized in 1906 as a state bank. In 1910 it was reorganized as the First National Bank. They have a capital and surplus of \$25,000, and are the largest and strongest bank in the county. They have deposits of \$225,000. A new building has recently been erected, modern in every respect and at a cost of \$10,000. The officers of the bank are: Robert W. Akin, president; August Peterson, vice president; L. E. Linder, cashier; Anton Jenstad, assistant cashier.

**Erickson-Hellekson Lumber Co.**  
This company was organized in 1909 and operates a large number of yards in the state. The home office of the company is located here and they have one of the finest yards in the state, covering a block. They carry a complete stock of building material and lumber. D. A. Vye is general manager of the company.

**The W. & K. Cafe.**  
Emma Cayotte is proprietor of this popular eating place where everything of the very best is served. Meals and lunches can be had at all times.

**The Plaza Land Co.**  
H. A. Carlson is manager of one of the most successful land companies in this part of the state, making a specialty of farm lands, loans and insurance and city property. He locates homesteaders on the Fort Berthold reservation.

**C. L. Holt & Co.**  
This store handles everything in the way of hardware and farm machinery and furniture. They also have the agency for the Ford, Buick and Dodge automobiles and handle auto supplies. This is one of the best equipped

stores along the line. Their motto is: Yours For Service.

**The Wolf Restaurant.**  
Last fall L. J. Wolf erected a new, modern building where he opened a first-class cafe and where he serves meals and lunches at all times.

**Pioneer State Bank.**  
The Pioneer State Bank was organized in 1906. They bought the first lot that was sold in the town in 1916. They erected a building at a cost of \$12,500. It is one of the finest country town banks in the state. The officers of the institution are: J. S. Johnson, president; A. A. Dosseth, vice president; A. C. Dosseth, cashier; M. I. Glarum, assistant cashier.

**Plaza Equity Elevator Co.**  
This concern was organized in 1912 and has 108 stockholders. The company operate two elevators and have a combined capacity of 70,000 bushels. The deal in grain, fuel, flour and twine. Henry Weslie is manager and M. B. Ross is assistant manager.

**Mr. Selvig was one of the first firms to start in business here when the town started in 1907 and now carries a fine up-to-date stock valued at \$18,000, composed of groceries, dry goods, shoes and furnishings. He has a new brick building 25x108. He also operates a store at Sanish under the name of the Selvig Mercantile Co.**

## 13 REGISTRANTS HAVE ENLISTED

Bakers' Dozen of Burleigh County Young Men Preferred Not to Wait for Draft

Thirteen Burleigh county men who registered in the selective draft have volunteered for military service, and more are coming in daily, announced Sheriff John P. French today.

The work of numbering the registrants is completed, the high number for the county being 1,798. This is held by Harvey L. Stegner, 819 First street, Bismarck. No. 1 is held by Lloyd Clifton Bandle of Braddock. The names are arranged first according to precincts and then alphabetically, so that it will be an easy matter for a registrant to find his number. Each man must look up his number for himself.

Copies of the list have been made and will be sent to E. H. Crowder, provost marshal general, Washington. Another copy will go to the local exemption board, one will be posted in a conspicuous place and one will go to the press for publication.

Doing Nicely—Lucille Knowles of Halliday, who was operated upon recently at St. Alexius hospital for a lacerated arm, is doing nicely.

## The Day at the State House

**ON VACATION.**  
Miss Emma McGarvey of the board of control officers is spending a vacation at Detroit Lake, Minn.

**PROVIDENT MEN TO MEET.**  
A convention of 75 agents and supervisors to the Provident Life insurance company will be held here August 3 and 4.

**PAYMASTER HERE.**  
Captain Dick, central department paymaster, arrived yesterday from Chicago and today is engaged in paying off the men at Fort Lincoln.

**FERNIST THE REGENTS.**  
The governor's office today received petitions, signed, it is claimed, by 185 Barnes county people, asking the removal of the state board of regents.

**NEW CORPORATION.**  
The Minot Cloak and Suit company, Minot; capital, \$25,000, was incorporated today by J. Norman Ellison, Otto C. Ellison and E. Ellison, all of the Magic city.

**TOO GOOD.**  
"Too much of a good thing," adjutant General Fraser today characterized a candidate for chaplain, who guaranteed 400 conversions during his first month's service.

**BUTTER JUDGING.**  
J. J. Osterhaus, state dairy commissioner, has gone to Grand Forks, where he will assist Carl F. Lee, Wisconsin food commissioner, with the butter judging. Next week Commissioner Osterhaus will be similarly engaged at Fargo.

**DROUTH HURTS DAIRIES.**  
Dairying business in the northern half of the state has been injured by continued dry weather and poor grass, states Assistant Dairy Commissioner Stanley H. Abbott, who has just completed the inspection of every town north of the Northern Pacific line.

**BEGIN WORK TODAY.**  
State Architect Sam Crabbe is here today supervising the beginning of the relaying of North Dakota's street railway line in the downtown district. Mr. Crabbe is seeking more laborers, the prison supply being insufficient, and he hopes to have the work completed with little further delay.

**TO NATIONAL MEET.**  
Governor Frazier has delegated John Bloom of Devils Lake fish and game commissioner, and John H. Kirk of Bottineau, George H. Hogue of Steele and Charles MacLachlan of New Rockford members of the fish and game board of control, to attend the annual convention of the National Association of Game and Fish Commissioners, at St. Paul, August 27-29, and the 47th annual meeting of the American Fisheries society, to be

**BACK FROM BRADDOCK.**  
State Engineer Jay W. Bliss has returned from Braddock, where he inspected some road work.

**ISSUING COMMISSIONS.**  
Governor Frazier this afternoon is signing commissions for 15 officers in

the new Second regiment. A complete roster of commissioned officers of both the First and Second regiments will be available tomorrow.

**PURE FOOD MEN HERE.**  
R. C. Bolsinger and R. O. Baird of the pure food department were in the city over Sunday. These men are particularly occupied just now with a still hunt for Burma beans, and they are finding them quite frequently. Several instances in which Burma beans have been furnished in place of navy beans for seed have been reported. Inasmuch as Burma beans will not mature in this latitude, the only danger in such cases is that of the loss of a crop.

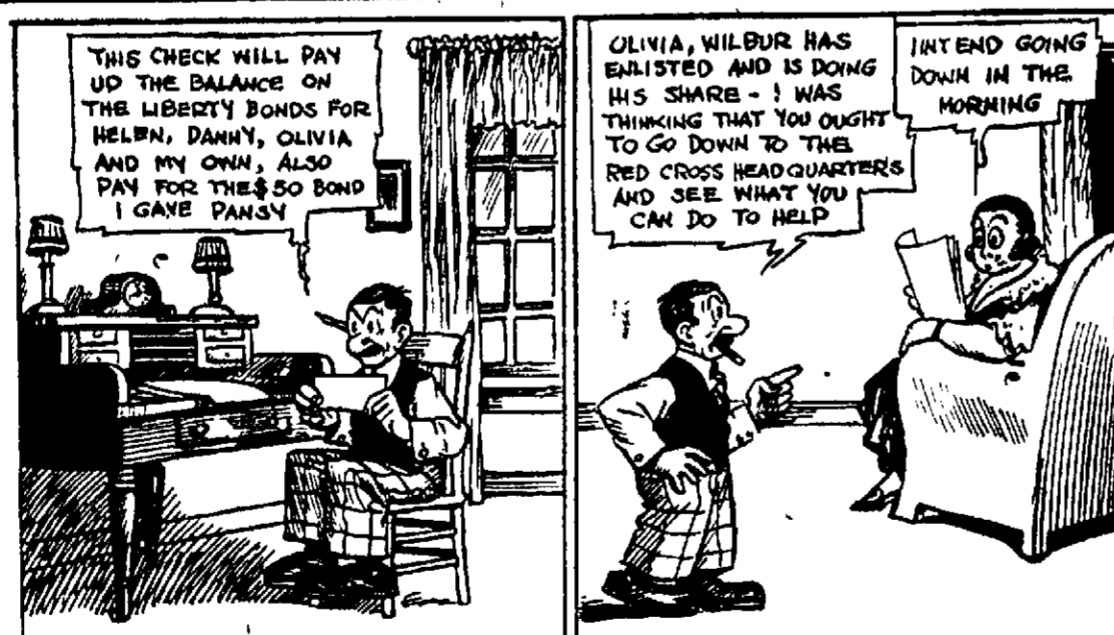

**STATE EQUALIZATION.**  
The state board of equalization will meet at the capital the first Monday in August in statutory session. To

date but one county board of equalization, that of Logan county, has reported its abstract of assessment.

**NEW EXAMINERS.**  
Marie Hansen of Grand Forks, Mildred Clark of Devils Lake and Emma Schroeder of Jamestown have been named by Governor Frazier members of the state board of nurses' examiners. Misses Clark and Schroeder succeeded themselves, while Miss Hansen succeeds Miss Pearl Mead of Bismarck, resigned.

## DOINGS OF THE DUFFS. By Allman

EVERYBODY HELPS AT TOM'S HOUSE

**MUCH OIL INSPECTED.**  
During the month of June 94,993 barrels of oil were inspected in North Dakota, and \$4,749.95 was inspected in fees, reported the state auditor today. It is the belief that these fees now go into the general fund, an appropriation having been made by the last assembly from which salaries of oil inspectors are paid.

**ENGINEERS AT WORK.**  
J. E. Kauffuss of the state engineer's office is in Fargo today, engaged in work in connection with Cass county's federal aid projects. P. W. Thomas, assistant state engineer, is in McLean county, engaged on a private dam and ditch irrigation project. V. H. Sprague has resigned from the state engineering staff to enlist with his home company at Draft. W. Bliss leaves this evening for Fargo to meet E. O. Hathaway of St. Paul, district federal engineer, with whom he will inspect federal aid projects in Cass, Richland, Traill, Foster and Griggs counties.

**NO PERSONAL TAX.**  
Little, if any personal tax will be paid in North Dakota next year. To get on the personal tax lists for even so little as \$7 the individual, under North Dakota's new tax schedule, must own at least \$1,000 worth of household furniture or other personal goods. On \$1,000 worth of household goods, which is somewhat more than the average citizen owns, the assessed valuation would be \$55, the new rate being 5 per cent, and of this amount the individual would be entitled to \$50 exemptions, leaving the valuation upon which he would pay taxes \$5.

**DISMISS APPLICATION.**  
The state railway commission today received notice from the railway commission of California that the railroads of that state have withdrawn their requests for a 15 per cent reduction in intrastate freight rates, made at the same time an application was made to the interstate railway commission for a general reduction. The California commission on the railway petition has dismissed the matter. In North Dakota no formal application for an intrastate freight rate reduction was made by the railways. The matter was discussed informally but no definite steps were taken by the railways.

## Declines In Certain Prices

It is a surprise and a pleasure to be able to write this ad. Five articles reduced in price this morning. We hope more to follow but will not "crow until we get out of the woods." Well here are the five articles.

Macaroni, Minnesota or Mother's brands, Mother's Vermicelli, Quality brand Spaghetti, Creamettes and Minnesota brand egg noodles.

One year ago these goods were selling for 10c per package. When wheat advanced over the \$2.60 mark per bushel then the prices of these packages went to 15c per package, which did not compare with the advance in wheat. Wheat declined last week. This week we are selling at declining prices and promise our customers that we will lower prices at every possible opportunity and we will tell them about it too.

Any of the above named goods, two packages, 25c.

When you order macaroni or any of the other goods named do not forget the cheese. Nor the milk and cream and read the recipes on carton before preparing and remember that this makes an excellent hot weather food and saves meat and labor.

Cheese, quality something extra, per pound	35c
Milk, strictly sanitary, per quart	10c
Cream, sweet and rich, per 1-2 pint 10c, per pint 20c, per quart	40c

LEAGUE DROPS  
PLAN TO DEAL  
WITH WORKERS

Townley Announces His Organiza-  
tion Is Divided Over Pro-  
position of Contract  
TERMS OF AGREEMENT  
ARE NOW MADE PUBLIC

The Nonpartisan league has dropped its plan for an agreement as to wages and hours between the farmers and the agricultural workers' union, the organization to which belongs most of the transitory farm laborers who help harvest the North Dakota crops.

The announcement that the plan had been abandoned came last night from North Dakota league headquarters in Fargo, after an afternoon meeting of league farmers at Devils Lake had failed to agree by a tie vote as to whether or not to go ahead with the plan.

Previously this week meetings of league farmers at Minot and Bismarck had voted to go ahead with the plan, and a meeting at Valley City had voted just as strongly against it.

In a statement President Townley of the league says that the plan is abandoned because league farmers are divided on the question, and that the league could not take up the proposition without the united consent of the members.

Coincident with this announcement the text of the proposed agreement worked out by league and A. W. U. committees is made public. This agreement was read to all the league meetings, but withheld from publication till all the meetings were over.

Here's What Was Proposed.

The proposed agreement, as given out last night, was as follows:

"Wages—For a 10-hour day; overtime, 40 cents per hour; for threshing, minimum wage, \$4 for a 10-hour day.

"Should wheat sell at \$1.75 per bushel, wages to be \$4.50; should wheat sell at \$2 per bushel, wages to be \$5; should wheat sell for \$2.25 per bushel, wages to be \$5.50; should wheat sell at \$2.50 per bushel, wages to be \$6.

"Ten hours to constitute a day's work, and overtime to be paid on all threshing work at the proportionate rate per hour. Wages to be paid above \$4 per day to be based on price of No. 1 northern at the local elevator.

"Computation of Time—Harvesting: The 10-hour schedule for harvest work means 10 hours in the field. Drivers

EYES! EYES TELL WHOLE  
STORY OF WAR AIMS, SAYS  
NOTED CHARACTER EXPERT

Pershing

Joffre

Haig

The Kaiser

Hindenburg

Holweg

Cleveland, O., July 14.—It is not only democracy against autocracy in this war, but kindness against brutality, optimism against pessimism, good will against treachery, civilization against savagery.

The eyes tell it. According to William Judson Kirby, character analyst of this city, the eyes betray the character of a person.

Contrast the eyes of the allied commanders with those of the Germans. There is the light, gleaming eye of General Pershing. In that eye is nothing but kindness, humanity, good humor and love for one's fellow man.

Marshal Joffre's eye also is straight, clear and narrow, revealing a feeling of humanity that is remarkably free

THE FIRST NATIONAL BANK

The Bank with the Clock  
OPPORTUNITY

Success in life consists largely of a combination of brains and opportunity. It is well to remember therefore, that unless you are ready for your opportunity when it comes success is not for you.

Business success depends almost entirely on having ready money with which to take advantage of opportunities and the one certain way by which to have ready money is to save it systematically month after month.

NOW is the time to begin. This strong, progressive bank welcomes savings deposits in any amount from \$1.00 up and pays 4 per cent compound interest.

The First National Bank  
BISMARCK, N. D.

More men, who formerly scorned women folk for insisting upon "exclusive" hats and gowns, have now entered that class as regards motor cars, and will no longer chide their wives about demanding exclusiveness.

A strong evidence of this new masculine tendency is shown by the great demand for "special jobs" related by the Studebaker corporation's custom made body department. Some of the most striking examples of fine color work to be seen on the famous drives of this country are the product of Studebaker's custom made shops.

Guided in their judgment by these increasing numbers of motorists who demand individuality in their motor cars, Studebaker announces that henceforth the Series 18 touring cars, both Four and Six, may be had in a choice of four distinctive colors.

The colors selected for the purchaser's option when he buys a new Series 18 Studebaker car are: Battleship gray, purple lake, clover green and auto blue. All of these shades have been carefully developed to a point of rare beauty and are hand applied to the Studebaker body after the buffing and sand blasting smoothing processes through which the body must go before it is finished.
